## Independent Auditor's Review Report

To the Shareholders and Board of Directors of Banka Kombetare Tregtare Sh.a.

We have reviewed the accompanying condensed consolidated interim statement of financial position of Banka Kombetare Tregtare Sh.a (hereafter referred as the “Bank” or the “Group”) as of 30 June 2021 and the related condensed consolidated interim statement of profit or loss and other comprehensive income, condensed consolidated interim statement of changes in equity and condensed consolidated interim statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of the condensed consolidated interim financial information in accordance with the International Financial Reporting Standards. Our responsibility is to express a conclusion on the condensed consolidated interim financial information based on our review.

### *Scope of Review*

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity.” A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Basis for Qualified Conclusion*

The Bank has treated its share capital issued in United States Dollar (USD) as a monetary item in the condensed consolidated interim financial information and recognized the revaluation differences for the six-month period ended 30 June 2021 within net profits in the condensed consolidated interim statement of profit or loss and other comprehensive income. This treatment is not in accordance with International Accounting Standard (IAS) 21 "The Effects of Changes in Foreign Exchange Rates" which requires share capital to be treated as a non-monetary item and carried at the exchange rate of the date of the transaction. Had the Bank treated its share capital in accordance with IAS 21 requirements, the share capital as at 30 June 2021 would have been increased by USD 27,081,987 retained earnings would have been decreased by USD 33,714,091 and the net profit would have been increased by USD 6,632,104 for the six month period ended 30 June 2021. Nevertheless, this would not have affected the total shareholders' equity.

### *Qualified Conclusion*

Based on our review, except for the possible effects of the matter described in the *Basis for Qualified Conclusion* section of our report, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information does not give a true and fair view of the financial position of the Bank as at 30 June 2021 and of its financial performance and its cash flows for the six-month period then ended in accordance with International Financial Reporting Standards.

# Banka Kombetare Tregtare sh.a.

Explanatory notes as of and for the six-month period ended 30 June 2021

(amounts in USD, unless otherwise stated)

## 1. General

Banka Kombetare Tregtare sh.a (the “Bank”) is a commercial bank offering a wide range of universal services. The Bank provides banking services to state- and privately-owned enterprises and to individuals in Albania and in Kosovo. The condensed consolidated interim financial statements comprise the bank in Albania and in Kosovo and its associate Albania Leasing (together referred to as the “Bank” “BKT” or the “Group”).

## 2. Share capital

The Bank’s share capital is issued and maintained in United States Dollars (“USD”) as allowed by the legislation in Albania as well as by a special Law no.8634 between the Bank’s shareholders and the Republic of Albania on the Bank’s privatisation. Furthermore, the Operating Policy Guidelines of the Bank require that the share capital be hedged by USD assets and it is therefore treated as a monetary item, with the revaluation difference being taken to the profit and loss account together with the revaluation difference of the corresponding USD asset, which offset each other in a natural hedge.

Upon the Shareholder’s Decision dated 14 April 2021, the Bank created legal reserves of Lek 1,646,695 thousand (equivalent of USD 15,985,776) and decided to distribute Lek 4,635,450 thousand as dividends (equivalent of USD 45,000,000, using the exchange rate published by Bank of Albania as at 14 April 2021 - 103.01 Lek per USD), using of the statutory net profit for the year ended December 31, 2020 and part of the net profit of the year 2019. Meanwhile, the dividend payment is suspended based on the respective decisions of the Supervisory Council of Bank of Albania until 2021 end. The remaining part of the net profit of the year 2020 was kept as retained earnings. The suspended dividend payment for the year 2020 was paid in January 2021 following the respective Bank of Albania decision.

As at 30 June 2021 and 31 December 2020, the registered share capital was USD 300,000,000.3 divided into 24,291,498 shares with a nominal value of USD 12.35, while the shareholding structure was as follows:

	30 June 2021			31 December 2020		
	No. of shares	Total in USD	%	No. of shares	Total in USD	%
Calik Finansal Hizmetler A.S.	24,291,498	300,000,000.3	100	24,291,498	300,000,000.3	100

## 3. Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 “Interim Financial Reporting”. They do not include all the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Bank as at and for the year ended 31 December 2020.

## 4. Functional and presentation currency

The financial statements are prepared in Albanian Lek “Lek” which is the currency of the primary economic environment in which the Bank operates (its functional currency). For reporting purposes these condensed consolidated interim financial statements are presented in USD which is the presentation currency.

The results and financial position of the Bank are translated in the presentation currency by translating (i) assets and liabilities at the closing rate at the date of that statement of financial position; and (ii) income and expenses at exchange rates at the dates of the transactions. All resulting exchange differences from the translation to the presentation currency are recognised in other comprehensive income.

The main exchange rates as at the end of each reporting period were as follows:

	30 June 2021	31 December 2020	30 June 2020
USD/LEK	103.10	100.84	110.95
EUR/LEK	122.67	123.70	124.34

### **5. Going Concern**

During the beginning of 2020, the pandemic of COVID-19 was spread globally. In response to the situation, in March 2020 the Government of Albania took drastic measures by suspending all activities that were not vital. Furthermore, facing the consequences of the COVID-19 Pandemic, which go far beyond the crucial element of public health, both the Government of Albania and Bank of Albania implemented immediate measures in order to mitigate the social and economic impact of the outbreak. The government announced a sovereign guarantee to all the business which are facing liquidity problems and will seek financing. Bank of Albania has announced that customers that will face liquidity problems can request a postponement of the settlement of their liabilities toward the Banks until 31.08.2020.

The Group considers the liquidity risk in the recovery plans, in the internal capital adequacy assessment process, setting well-defined limits on its appetite for risk. The Group determines that its capital resources are available.

In terms of liquidity scenarios, the Group conducts periodically stress tests exercises to assess its liquidity position. In these exercises it considers a liquidity crisis scenario specific to BKT and a liquidity crisis scenario to the entire banking system, assuming withdrawal of deposits of at least 20% and delay in loan repayments. Through the first half of 2021, the exercises have confirmed that even if the liquidity stress situation would continue for a period of 3 months, the Group would meet the demand for funds for its 3 main currencies ALL, EUR and USD.

The Group performs stress test exercises to test the possible impact of macroeconomic indicators in Group's key financial position, performance and regulatory compliance. These stress tests are mainly focused on the impact that some outlined macro and microeconomic scenarios might have on the loan portfolio, being the Group's main source of income, financial position including market risk. Official forecast models of the Central Bank and Group's internal risk valuation are used in these exercises.

In various stress test scenarios, the CAR in both, baseline and adverse scenarios, have resulted above the minimum requirement threshold set by Bank of Albania. The Group has assumed that there is no need the capital requirements be increased.

In May 2021 the bank has approved the internal capital adequacy assessment process as at 31.12.2020.

For the year ending 2021, the Group would expect an increase on the nonperforming loans portfolio due to the economic downturn. Following the emergence of COVID - 19 pandemics, the Group has analysed and considered the macroeconomic changes to reflect the impact of COVID - 19 in the calculation of the Expected Credit Loss.

During 2020 and the first half of 2021, the Group has managed to achieve the budgeted results, exceeding them in terms of profitability and balance sheet size. For the year ending 2021, the Group expects the budgeted figures to be standing at positive results, although not possible to be reliably measured at the moment.

As regards to the Investment Securities portfolio, in 2021 the Management expect a stable performance of the fair value reserve.

The Group's management evaluates the Group's ability to continue as a going concern considering all the factors stated above and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the Consolidated Financial Statements continue to be prepared on the going concern basis.

### **6. Significant accounting policies**

The Interim Financial Statements have been prepared in accordance with the accounting policies adopted in the Group's most recent annual financial statements for the year ended 31 December 2020.

### **7. Estimates**

The preparation of this condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Except as described in section below, in preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Bank's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended 31 December 2020.

During 2021 the Bank has performed an internal study on corporate portfolio and produced internal average default rates based on the period 2012 -2020 and global default rates based on historical data 2008 – 2020. For the rest of the loan portfolio and other financial assets BKT applied external average default rates and global default rates obtained from rating agencies.

### **8. Financial risk management**

During the six months ended 30 June 2021 the Bank's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended 31 December 2020.

### **9. Fair value of financial assets**

The Bank's investment securities portfolio as at 30 June 2021 includes investment securities - measured at FVOCI amounting USD 2,007,510,302 (31 December 2019: USD 1,946,518,372); investment securities - measured at FVTPL amounting USD 122,833,822 (31 December 2020: 74,800,810) and investment securities - measured at amortised cost amounting USD 196,785,535 (31 December 2020: 164,360,574).

### **10. Impairment of financial assets**

#### **a) Impairment of financial assets measured at amortised cost**

At each reporting date, the Bank assesses whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired.

As at 30 June 2021, the impairment for loan losses was USD 69,818,512 (31 December 2020: USD 70,691,386) and the impairment for other financial assets was USD 5,605,704 (31 December 2020: USD 2,910,788).

#### **b) Impairment of financial assets measured at FVOCI**

Following the requirements of the standard "IFRS 9-Financial Instruments", impairment of FVOCI represents the impairment provision for debt securities measured at FVOCI recognised in other comprehensive income.

As at 30 June 2021, the impairment of FVOCI at 4,961,102 USD (31 December 2020: USD 6,170,410) was composed of available-for-sale securities impairment provision at 4,858,690 USD (31 December 2020: USD 5,916,152) and treasury bills available-for-sale impairment provision at 102,411 USD (31 December 2020: USD 254,258).
