Effective Interest Rate	<p>The effective interest rate (EI) expresses the total cost of the loan including interest, commissions and any other type of expenses that the borrower pays in connection with the loan agreement within the terms of this loan agreement. For the purposes of calculating the NEI, the total cost of the loan does not include expenses that are not recognized on the date of the calculation of the NEI, expenses payable by the borrower of obligations for non-implementation of the conditions provided for in this contract, costs payable by the customer in connection with the agreement of credit to other persons (for example, a notary, tax authority, mortgage register) and any expenses generally incurred for registration and guarantees; expenses for insurance and/or non-binding guarantees, expenses for commissions applied to unused funds and expenses for commissions for changing contractual conditions. NEI will be calculated with the assumption that:</p> <ul style="list-style-type: none"> - the loan contract is valid for the agreed period, and - the parties fulfill their obligations, according to the terms and date agreed in this loan contract, and - the percentage of interest and other expenses that are included in the calculation of EIR remain unchanged (fixed) until the end of the loan contract.
